

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

**Montag, 09. September 2019**

08:30 - 10:00	<b>Registration</b> Registration	Foyer, UniS
10:00 - 10:30	<b>Welcome Address</b> Welcome Address	Rooms A 003 + A 103
10:30 - 11:30	<b>Keynote: Stefanie Schmidt</b> <b>Emerging psychopathology and prevention in adolescents: advances, limitations and perspectives</b> ( <i>Speaker: Stefanie Schmidt, Clinical Psychology in Children and Adolescents at the University of Bern</i> )	Rooms A 003 + A 103
11:30 - 13:00	<b>Lunchbreak</b> Lunchbreak	Foyer
13:00 - 14:30	<b>Symposium / Paper Sessions</b> <b>New findings on executive functions in children and adults</b> ( <i>Chairperson: Niamh Oeri, University of Bern, Institute for psychology, Switzerland</i> ) <i>Towards a Better Understanding of the Motor-Cognition Link in 5- to 6-Year old Children (Michelle Maurer)</i> <i>Self-regulation in preschool children: Factor structure of different measures of effortful control and executive function (Sonja Kälin)</i> <i>From ego-depletion to inhibition exhaustion: approaching the phenomenon in real-time (Cyril Forestier)</i> <i>Executive functions in childrens' persistent and non-persistent behaviour (Niamh Oeri)</i>	Room A 015
	<b>Studying stereotypes: Ethnic and gender diversity in work contexts</b> <i>Agency and Communion Wording in Female- and Male-dominated Job Advertisements (Agnieszka Pietraszkiewicz)</i> <i>Why the hospitality industry needs women in managerial positions: The positive influence of women leadership on employee motivation (Helene Cregut-Aston)</i> <i>Working (in) diversity. A survey experiment on the consequences of ethnic diversity on team social integration (Franziska Josefine Kößler)</i>	Room A 017
	<b>It's all about how you look at it: Moral evaluations of transgressions from different perspectives</b> ( <i>Chairperson: Johannes Ullrich, Universität Zürich, Psychologisches Institut</i> ) <i>(Not) seeing through the eyes of the perpetrator (Anna Lisa Aydin)</i> <i>The Effect of Outcome Severity on Moral Judgment and Interpersonal Goals of Observers, Victims, and Perpetrators (Lisa Frisch)</i>	Room A 019

## 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

*Moral evaluations of victims' and perpetrators' behavior in ostracism situations (Rainer Greifeneder)*

*Will hygiene norms really become ever stricter due to the asymmetries of punishment propensities? (Robert Tobias)*

**Effective teamwork in the wild: The influence of contextual factors on indicators of team effectiveness in applied settings** (Chairperson: Michael J. Burtscher, University of Zurich, Department of Psychology, Switzerland)

Room A 022

*How hierarchical differences and leadership centralization affect nurses' voice behavior in medical teams (Michael J. Burtscher)*

*The effects of destructive leadership on communication practices in teams (Anamarija Klaić)*

*Psychological Safety's Moderating Role in the Prediction of Physicians' Influenza Vaccination Behavior (Manuel Stühlinger)*

*Do Financial Staffing Resources Promote Team Performance? The Effects of Core and Peripheral Team Instability. (Surabhi Pasarakonda)*

**Fostering sustainable behaviour in individuals** (Chairperson: Ann Krispenz, University of Bern, Institute for Educational Science, Switzerland)

Room A 027

*Using Twitter to Investigate the Relation Between Local Temperatures and Public Attention To Climate Change (Christian Mumenthaler)*

*Correlates of the Intention to Reduce One's Meat Consumption (Ann Krispenz)*

*Increasing willingness to pay for alternative fuel cars: Consumers' sensitivity to fuel consumption framing (Mario Herberz)*

*What traits lead individuals to behave environmentally? Character's contribution to building confidence in overcoming barriers to climate change adaptation and mitigation (Alexander Stahlmann)*

**Psychology without borders: What psychologists can learn from testing models across cultures** (Chairperson: Amber Gayle Thalmayer, Université de Lausanne, Institut de psychologie, Switzerland)

Room A 119

*The Neglected 95% revisited: Is Psychology becoming less American? (Cecilia Toscanelli)*

*Personality Description in Khoekhoe (Amber Gayle Thalmayer)*

*Family Models as a Mirror of Cultural Values (Boris Mayer)*

*Culture Reveals Flexible and Distinct Systems for Face Processing (Roberto Caldara)*

**Debunking myths widely held in society. Magic beliefs, conspiracy theories, hypnosis, and colour therapy** (Chairperson: Domicela Jonauskaitė, Université de Lausanne, Institut de psychologie, Switzerland; Christine Mohr, Université de Lausanne, Institut de psychologie, Switzerland)

Room A 122

*First reinforcing, then debunking – Magicians' impact on performance-related beliefs (Christine Mohr)*

*Desires and reality: Confirmation bias and belief in conspiracy theories (Pascal Wagner)*

*Hypnosis: myths and science (Isabel Tissières)*

*How effective are colour-based therapies? A case of Colour Breathing Relaxation Technique (Domicela Jonauskaitė)*

## 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

**Reaching out to make a difference: Extending psychological interventions to new targets** (Chairperson: Andrew Gloster, University of Basel, Division of Clinical Psychology and Intervention Science, Basel; Thomas Berger, University of Bern, Clinical Psychology and Psychotherapy, Bern)

Room A 126

*Using Principles of Clinical Interventions to Promote Prosociality in Non-Clinical Groups* (Andrew Gloster)

*"Willkommen Mutterglück": A web-based psychotherapeutic intervention for perinatal depression and anxiety* (Rita Amiel Castro)

*Testing an Internet-based compassion-focused intervention for increased self-criticism: A randomized controlled trial* (Tobias Krieger)

*The working alliance in Internet interventions: Results from several studies* (Thomas Berger)

**Stress and aging** (Chairperson: Nicola Ballhausen, University of Geneva, Centre for the Interdisciplinary Study of Gerontology and Vulnerabilities (CIGEV), Switzerland)

Room A 201

*Predictors of Stress Perceptions in Widowhood and Divorce in Older Age* (Charikleia Lampraki)

*Resilience and stress sensitivity following childhood trauma in aged individuals* (Carla Eising)

*Effects of psychological stress on older adults' cognition: a literature overview and directions of future research* (Greta Miknevičiute)

*Age differences in affect in an EEG experiment on episodic memory* (Siri-Maria Kamp)

14:30 - 15:00

**Coffee Break**

Coffee Break

Hallway

15:00 - 15:30

**Award**

Young Scientist Award

Rooms A 003 + A 103

15:30 - 16:30

**Keynote: Isabel Dziobek**

**Addressing mental health challenges of the 21st century: from artificial intelligence to participatory research and the case of autism** (Speaker: Isabel Dziobek, Berlin School of Mind and Brain, Humboldt-Universität Berlin)

Rooms A 003 + A 103

16:45 - 18:15

**Postersession / Wine Reception**

Poster Session 1 including Wine Reception

Rooms A 017 + A 019

*Intention formation shields against mood effects on effort mobilization* (Yann Bouzidi)

*BEGIN: Enhancing social integration of immigrants with an intergenerational mentoring program* (Beate Schwarz)

*Respiratory variability in university music students with low and high levels of music performance anxiety (MPA)* (Patrick Gomez)

## 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

*Associations of marital parenting conflicts in parents of youths: How are these conflicts related to well-being, marital and parenting related difficulties? (Barbara Gabriel)*

*Size and quality of perceived social networks of an in-patient and out-patient group from a psychiatric hospital (Victoria Firsching)*

*Multidimensional Scaling of the French WISC-V (Salome Döll)*

*Collective memory for Swiss Magistrates: Recency effect and reminiscence bump, but no evidence for a primacy effect (Beat Meier)*

*Development of performance adjustments after cognitive conflicts and errors: From automatic to controlled processes (Mirela Dubravac)*

*Does Mortality priming increase religious thinking? Evidence from implicit spatial-religious associations (Michael Rihs)*

*Test-Retest Reliability of fMRI BOLD Signal During Reward Processing: A Small Meta-Analysis (Alexandra Bagaini)*

*A cross-cultural study in counting span task between Chinese and Swiss children (Stéphanie Mariz Elsig)*

*Metacognitive development in elementary school children (Natalie Bayard-Guggisberg)*

*The impact of life course socioeconomic adversity on prospective memory in older age: The role of loneliness (Morgane Künzi)*

*The Role of Attention on the Associative Relatedness Effect in Verbal Working Memory (Fiona Laura Rosselet-Jordan)*

*Automated collection and analysis of verbal data for psychological research (Eric Mayor)*

*The direct impact of the need for achievement on effort mobilization depends on the clarity of task difficulty (Florence Mazeret)*

*Spatial compression in redundancy masking (Fazilet Zeynep Yildirim)*

*Investigating the relationship between reaction time and intelligence by different fixed-links models (Daniele Gubler)*

*Processing speed in the Hick task is a better indicator of intelligence when assessed as inspection time (Natalie Borter)*

*How do parents' disagreements and marital conflicts predict the personality profile at risk of problematic substance use in teenagers? (Ogma Hatta)*

*The schematic association between self-control and reduced vitality (Alex Bertrams)*

*Importance of Reflexivity Quality in Resuscitation Performance (Camille Morgenthaler)*

*Fatigue in Multiple Sclerosis – A Self-Control Approach (Wanja Wolff)*

*Overqualification and Subjective Career Success: The Role of Turnover Intentions and Actual work-related Changes (Annabelle Hofer)*

*Boundaries for success? How managing the work-home interface affects individuals' careers (Angelika Kornblum)*

*Emocube for emotions recognition and good relation with others (Carol Gehringer)*

## 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

*Big data, serious gaming and psychological research for healthcare innovation*  
(Kevyn Eva Norton)

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

**Dienstag, 10. September 2019**

- 09:00 - 10:00 **Keynote: Daphne Bavelier**  
**How to boost attentional control: Lessons from action video games**  
(Speaker: Daphne Bavelier, Cognitive Neuroscience, University of Geneva, Switzerland) Rooms A 003 + A 103
- 10:00 - 10:30 **Coffee Break**  
Coffee Break Hallway
- 10:30 - 12:00 **Symposium / Paper Sessions**
- Couples, families and emotions** (Chairperson: Joëlle Darwiche, Family and Development research center, 1015 Lausanne) Room A 015
- Early Family Interactions as Predictors of Child's Understanding of Inner States and Emotions at age 5 and 15 (Noémie Lapalus)*
- Couples Coping with Depression - Perceived Equity and Symptomatology in Patients and Partners (Fabienne Meier)*
- Vocally Encoded Emotional Arousal in Couples Talking about Stress and its Associations with Dyadic Coping (Lisanne Bulling)*
- Can affective behavior predict change of romantic satisfaction, coparental satisfaction and individual symptomatology in parent couples' therapy? (Esther Liekmeier)*
- Evaluating trainings, programs, and instruments in different fields of psychology** (Chairperson: Julia Hegy, Universität Bern, Institut für Psychologie, Switzerland) Room A 017
- Undergraduate medical communication training in breaking bad news: Two studies exploring the effectiveness from the perspectives of experts and patients (Valerie Carrard)*
- Adjustment problems after an accident: Development, piloting and implementation of the internet-based psychological self-help program "SelfFIT" (Julia Hegy)*
- What You See Is What You Rate: Validation of a Pictorial Instrument to Measure Perceived Usability (Juergen Baumgartner)*
- The interplay of intergroup contact and normative climates in shaping prejudice** (Chairperson: Oriane Sarrasin, oriane.sarrasin@unil.ch) Room A 019
- Equality revisited: A cultural meta-analysis of intergroup contact and prejudice (Judith Kende)*
- (Mis)understanding pro-social intergroup contact. The moderating role of ingroup and outgroup norms (Islam Borinca)*
- Future contact intentions with refugees: The role of social norms and imagined contact. (Giulia Valsecchi)*
- Personal experiences with asylum seekers can disrupt the normative influence of mass-media on solidarity with asylum seekers (Sylvie Graf)*

**New perspectives on everyday incivility at work: Triggers, dynamics and effects on job satisfaction, health and self-esteem** (Chairperson: Sandra Keller, Brigham and Women's hospital, Center for surgery and public Health, Boston (MA), USA)

Room A 022

*Is rudeness at work always harmful? Moderating role of perceived intent to harm (Daniela Adiyaman)*

*Explaining triggers of tensions in tightly cooperating medical teams: Towards a theory of micro-coordination conflict (Norbert Semmer)*

*Sleep Quality, Acute Mental Fatigue, and daily Social Stressors at Work: An Actigraphy Study (Achim Elfering)*

*Experienced tensions in the operating room: impact on job satisfaction (Sandra Keller)*

**Airport security: New findings on baggage screening** (Chairperson: Sarah Merks, School of Applied Psychology, University of Applied Sciences and Arts Northwestern Switzerland (FHNW), Olten)

Room A 027

*Traditional visual search versus X-ray image inspection in students and professionals: Are the same visual-cognitive abilities needed? (Sarah Merks)*

*Detection Measures for Visual Inspection of X-ray Images of Passenger Baggage (Yanik Sterchi)*

*Human-automation interaction in a simulated cabin baggage screening task with automated explosives detection (David Huegli)*

*X-ray screening of hold baggage: Are the same visual-cognitive abilities needed for 2D and 3D imaging? (Melina Zeballos)*

**Innovative and real life methods in psychological research across the lifespan** (Chairperson: Tabea Meier, University of Zurich, Department of Psychology URPP 'Dynamics of Healthy Aging', Switzerland; Stefanie Lindner, University of Zurich, Department of Psychology URPP 'Dynamics of Healthy Aging', Switzerland)

Room A 119

*The Sound of Memory: Naturalistic Sampling of Age-Related Prospective Memory (Maximilian Haas)*

*Are Older Adults Rigid in Their Personality Manifestations in Daily Life? (Stefanie Lindner)*

*Lost in translation? Accommodation to psychological language signatures in real life (Tabea Meier)*

**Current understanding of dyscalculia and difficulties in mathematics** (Chairperson: Catherine Thevenot, University of Lausanne; Jasinta Dewi, University of Lausanne)

Room A 122

*Dyscalculia – Prediction, Prevention, Persistence (Karin Kucian)*

*Problem-size effect in tie and non-tie addition solving for children with dyscalculia (Jeanne Bagnoud)*

*Growing up with dyscalculia – how does the “numerical brain” develop? (Ursina McCaskey)*

*Emotion-regulation skills compensate for low executive functioning in children's mathematical achievement (Wenke Möhring)*

**Launch of the Cultural Clinical Psychology Young Researchers Network (CCP-YRN)** (Chairperson: Clare Killikelly, Department of Psychologie 14-17 Binzmühlestrasse, Zurich, 8050)

Room A 126

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

*Magical Thinking in Severe Grief Reactions (Christian Lönneker)*

*Resilience in Irish adult survivors of childhood institutional abuse: The cross-cultural application of a resilience model. (Shauna Mc Gee)*

*Mental health of Unaccompanied Refugee Minors: first steps to a cross-sectional comparative study in two French-speaking cantons (Liridona Kameri)*

*Cultural adaptation of scalable interventions: A new conceptual framework (Eva Heim)*

**Emotion regulation in developmental and personality disorders (Chairperson: Angela Knoche, University of Bern, Institute of psychology, Switzerland)**

Room A 201

*Music listening – a functional emotion regulation skill for Borderline patients? (Angela Knoche)*

*Exploring VR as a means to alleviate emotion regulation difficulties in people with developmental disorders (Lina Stallmann)*

*Efficacy of a novel training program on positive emotion regulation for individuals with Autism Spectrum Disorder (Alexandria Zaharia)*

12:00 - 13:30

## **Lunchbreak**

Lunchbreak

Foyer

13:30 - 15:00

## **Symposium / Paper Sessions**

**The relevance of considering contexts when studying people's motivations, emotions, and behavior (Chairperson: Sarah Hoppler, University of Basel, Faculty of Psychology, Personality and Developmental Psychology, Switzerland; Janina Larissa Bühler, University of Basel, Faculty of Psychology, Developmental and Personality Psychology, Switzerland)**

Room A 015

*Approach and Avoidance Relationship Goals and Couples' Verbal and Nonverbal Communication During Conflict (Mirjam Ghassemi)*

*A Closer Look at Life Goals Across Adulthood: Applying a Developmental Perspective to Goal Importance and Goal Attainability (Janina Bühler)*

*A Closer Look at Types of Positive Daily Social Interactions – Association With Subjective Well-Being and Age (Sarah Hoppler)*

*Emotion Recognition and Behavioral Adaptability: to Whom and When are these Skills Related in the Leadership Context? (Tristan Palese)*

## **Influences on mental health and physical well-being**

Room A 017

*Neonatal male circumcision and altered socioaffective behavior: What's next? (Alessandro Miani)*

*Mental health and its associations with weight in women with gestational diabetes mellitus. A prospective clinical cohort study. (Leah Gilbert)*

*Is a new romantic love a key factor to overcome marital break-up? Trajectories of life satisfaction after separation in middle and later life (Sandra Gloor)*

*Interreligious and Intercultural Couples: Risks and Chances. (Michael Ackert)*

**Why is gender equality so difficult to reach? (Chairperson: Giulia Valsecchi, Université de Genève, Institut de psychologie, Switzerland; Vincenzo Iacoviello, Université de Genève, Institut de psychologie, Switzerland)**

Room A 019

## 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

*Language and gender, or when the masculine form prevails (Pascal Gygax)*

*Is Traditional Masculinity Still Valued? Perceptions of Traditional Masculinity and Femininity Norms as a Function of the Reference Group (Vincenzo Iacoviello)*

*The consequences of men's gender role evolution on men's endorsement of masculinist beliefs. (Giulia Valsecchi)*

*Masculinist Beliefs and Affirmative Action Policies (Angela Gaia Abatista)*

**Influences on individual and social learning** (Chairperson: Egon Werlen, Swiss Distance University of Applied Sciences (FFHS), Institute for Research in Open-, Distance- and eLearning (IFeL), Brig)

Room A 022

*Influence of mood and curiosity on mental effort and learning performance during problem solving in adaptive learning (Egon Werlen)*

*Achievement motivation shapes Pavlovian aversive learning to goal-relevant stimuli (Yoann Stussi)*

*Teaching, Storytelling and Innovation in Cultural Transmission (Ottillie Tilston)*

**Psychology's contribution to hospitality** (Chairperson: Annick Darioly, Les Roches Global Hospitality Education, Switzerland; Sébastien Fernandez, Ecole hôtelière de Lausanne, Switzerland)

Room A 027

*The Social and Emotional Skills of Hospitality students (Annick Darioly)*

*Customer-oriented behaviors in restaurants: Personality-based antecedents and impact on tips (Sébastien Fernandez)*

*An investigation into the effects of luxury hotel atmospherics and servicescapes on customer satisfaction and loyalty (Grace Huang)*

*Convenience of Flight Schedule Moderates Service Quality and Customer Satisfaction (Elena Wong)*

**Predicting decisions from motivation in the brain and its potential implications for society** (Chairperson: Enru Lin, ETH Zurich, Department of Management Technology and Economics, Zurich)

Room A 119

*Power increases individuals' drive to pursue rewards in the brain (Enru Lin)*

*Mentalising with the future? Electrical stimulation of the right TPJ increases sustainable decision-making (Benedikt P Langenbach)*

*Learning When to Choose for Others (Micah Edelson)*

*Mechanisms underlying transfer of social fear learning to decision-making (Philippe Tobler)*

**Psychology's contribution to our understanding of the constituents of mathematical skills** (Chairperson: Catherine Thevenot, University of Lausanne; Jasinta Dewi, University of Lausanne)

Room A 122

*Identifying children at risk of later mathematical difficulties in order to enhance their early numerical skills at school and at home (Anne-Françoise de Chambrier)*

*Associations between Mental Rotation and Fraction Knowledge in Children (Wenke Möhring)*

*Summing Up: What Eye-Movements Tell Us about Spatial-Numerical Associations in Mental Arithmetic (Matthias Hartmann)*

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

*Isomorphic word arithmetic problems solving for assessing conceptual knowledge (Calliste Scheibling-Sève)*

**What can psychotherapy learn from animal-assisted therapy?** (Chairperson: Karin Hediger, Missionsstrasse 62, 4055 Basel)

Room A 126

*Neurovascular Responses During Human-Animal Interaction (Rahel Marti)*

*Animal-assisted placebo-induced analgesia: A randomized controlled trial in healthy participants (Cora Wagner)*

*The practice of animal-assisted psychotherapy (Karin Hediger)*

*Animal-Assisted Mindfulness and Self-Compassion Intervention (TASP-Program) (Pascale Künzi)*

**Positive and negative affect - two sides of the same coin?** (Chairperson: Jens Gaab, Universität Basel, Fakultät für Psychologie, Schweiz; Heike Gerger, Universität Basel, Fakultät für Psychologie, Schweiz)

Room A 201

*Exposure to parental depression: A longitudinal analysis on the association with adolescents' depressive symptoms and adjustment problems (Helen Koechlin)*

*More than a laugh? Potential effects of hospital clowns on hospitalized children – A clown, parent, and nurse perspective (Heike Gerger)*

*Open/hidden administration of alliance in experimentally induced guilt (Jens Gaab)*

15:00 - 15:30 **Coffee Break**

Coffee Break

Hallway

15:30 - 17:00 **Symposium / Paper Sessions**

**New findings on cognitive development in children and adolescents**

(Chairperson: Andrea Frick, University of Fribourg, Department of Psychology, Switzerland)

Room A 015

*Trajectories of monitoring in high and low performing elementary school children (Martina Steiner)*

*Post-error slowing in children and adolescents (Qendresa Thaqi)*

*Development of multitasking abilities between 7 and 10 years of age (Andrea Frick)*

*Impact of Non-CNS Childhood Cancer on Resting-State Connectivity and its Association with Cognition (Janine Spitzhuettl)*

**Self-, social, and structural regulation of health and well-being: Recent findings from Swiss health psychology research** (Chairperson: Jennifer Inauen, University of Bern, Institute of Psychology, Switzerland)

Room A 017

*Can goal setting reduce sugar-sweetened beverage consumption within persons? A micro-randomized trial (Jennifer Inauen)*

*Bioinspired exoskeletons to assist walk: Exploring perceptions among elderly people with reduced mobility and among informal and professional caregivers (Maria del Rio Carral)*

*Social control for health behavior change: Curse or blessing? (Urte Scholz)*

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

*Self-regulation of Cannabis consumption (Hansjörg Znoj)*

**Autism spectrum, burn-out, and test anxiety** (Chairperson: David Buttellmann, University of Bern, Institute of Psychology, Switzerland)

Room A 019

*Is burnout a non-depressive syndrome? A multi-sample confirmatory factor analytic study (Renzo Bianchi)*

*Forecasting of PTSD with machine learning: The relevance of cognitive and emotional processing (Mareike Augsburger)*

*How to Reduce Test Anxiety and Academic Procrastination Through Inquiry of Cognitive Appraisals: Investigating the Role of Academic Self-Efficacy (Ann Krispenz)*

*Children with autism spectrum condition track a bystander agent's beliefs (David Buttellmann)*

**Research on career orientation, career attitudes, and career-related resources** (Chairperson: Madeleine Haenggli, University of Bern, Work and Organizational Psychology, Switzerland)

Room A 022

*Careers on the move: Work values link protean career orientation to boundaryless career orientation (Francisco Wilhelm)*

*Testing career resource loss spirals according to the Conservation of Resources Theory in vulnerable Swiss youth (Anouk Albien)*

*The positive effect of work- and school-related resources on learners' career attitudes (Fabienne Lüthi)*

*Career Profiles of Employees: What Resources Typically Occur Together and What Is Their Relation to Career Outcomes (Madeleine Haenggli)*

**Social stress at work and beyond** (Chairperson: Juergen Sauer, University of Fribourg, Department of Psychology, Switzerland; Andreas Sonderegger, EPFL, ECAL Lab, Switzerland)

Room A 027

*Social stress in human-machine systems: some deliberations (Juergen Sauer)*

*Negative feedback and performance in human-machine teams (Simon Thuillard)*

*Responses to social stress in children (Nadine Messerli-Bürgy)*

*Social support from your robot colleague – does it work as well as with a human buddy? (Andreas Sonderegger)*

**Transactions between personality and important life domains across the lifespan** (Chairperson: Ulrich Orth, University of Bern, Department of Psychology, Switzerland; Janina Larissa Bühler, University of Basel, Department of Psychology, Switzerland)

Room A 119

*Personality–Partnership Transactions Across the Adult Life Span (Janina Bühler)*

*How objective career success relates to changes in personality traits (Anja Ghetta)*

*Co-Development of Self-Esteem and Relational Aggression in Youth Aged 10-16 Years (Rebekka Weidmann)*

*Does Your Work Define Your (Self-)Worth? A Meta-Analysis of Longitudinal Studies on Work and Self-Esteem (Samantha Krauss)*

**Alternative strategies in goal pursuit** (Chairperson: Leila M. Straub, Weinbergstrasse 56/58, 8092 Zürich)

Room A 122

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

*It's not good for everyone to have a backup plan: The powerless are more distracted by backup plans than the powerful (Leila Straub)*

*Lost on the fence: Action crises as an antecedent of disengagement (Benjamin Mario Wolf)*

*Powerlessness and Threat Compensation (Robin Willardt)*

**Different approaches to understand acceptance and adherence: Examples from four online-interventions for mental health issues** (Chairperson: Julia Hegy, Universität Bern, Institut für Psychologie, Switzerland)

Room A 126

*Enhancing Adherence in Online Interventions - Screening four Factors with a Multifactorial Study Design in an Online Self-Help Intervention based on Problem-Solving Therapy (Oliver Bur)*

*Cultural adaptation of an internet-based self-help programme for the treatment of depression among Albanian-speaking immigrants in Switzerland: Randomised controlled trial (Eva Heim)*

*The association of participant characteristics with adherence and treatment outcomes in an internet intervention for prolonged grief symptoms after spousal bereavement and divorce (Jeannette Brodbeck)*

*Implications of the findings from a pilot study for the facilitation of acceptance and usability of an online self-help program for adjustment problems after experiencing an accident (Noemi Brog)*

**Current basic and applied research on food consumption** (Chairperson: Geraldine Coppin, Swiss Distance Learning University, Ueberlandstrasse 12, 3900 Brig, Switzerland)

Room A 201

*BEAT: Binge-Eating Adolescent Treatment – preliminary findings in youth with loss of control eating (Felicitas Forrer)*

*Emotion regulation in a population of various Body Mass Indexes (Jeanne Richard)*

*How external cues affect food intake (Thomas Brunner)*

17:15 - 19:15 **Annual General Meeting**

Annual General Meeting

Room A 022

19:45 - 00:45 **Conference Dinner**

Conference Dinner

Grosse Schanze

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

**Mittwoch, 11. September 2019**

09:00 - 10:00

## **Short Talks**

Short Talks

Rooms A 003 + A 103

*Mechanisms of social media on mental health, self-concept and social relationships in adolescents and young adults (Alisa Manske)*

*How to balance work and life: Why character strengths and flexibility matter for work-related outcomes and the balance between life domains. (Valentina Vylobkova)*

*Eyewitness Identification: predicting mug book recognition according to witness description certainty. (Alexander Handler)*

*Individual fixation biases generalize from free viewing to visual search (Tamara Alsheimer)*

*Gender quotas for leadership: Can they help establish effective role models for the next generation of women leaders? (Christa Nater)*

*The influence of cognitive, social and emotional phenotypes on the sense of humor: the case of Autism Spectrum Disorder and Williams syndrome. (Noémie Treichel)*

*A mental image is like herding cats (or kids) (Lilla Gurtner)*

10:00 - 10:30

## **Coffee Break**

Coffee Break

Hallway

10:30 - 12:00

## **Symposium / Paper Sessions**

### **Affective interdependence: Your outcomes shape my experience**

*(Chairperson: Mirjam Ghassemi, University of Zurich, Department of Psychology, Switzerland; Mona, Andrea Neysari, Horn, University of Zurich, Department of Psychology, Switzerland)*

Room A 015

*"Take care honey": Individuals are more anxious about their significant others' risk behavior than about their own (Mirjam Ghassemi)*

*LIVIA-FR: An online unguided self-help intervention for people struggling with interpersonal loss (Liliane Efinger)*

*Thanks for sharing this: rumination and perceived quality of disclosure in the daily emotion regulation of romantic couples (Andrea B. Horn)*

### **Women's mental health: the role of biological and social factors**

*(Chairperson: Rita Amiel Castro, Universität Zürich, Psychologisches Institut, Switzerland; Ulrike Ehlert, Universität Zürich, Psychologisches Institut, Switzerland)*

Room A 017

*Fertility preservation in female cancer patients – what do we know and where to go? (Verena Ehrbar)*

*Hypothalamic-pituitary-gonadal (HPG) axis in female depressive disorders during gestation and postpartum - a systematic review and meta-analysis (Rita Amiel Castro)*

*Traumatic childbirth: impact on parental mental health (Antje Horsch)*

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

## **Self-regulation and effort I: Affective influences and consequences**

(Chairperson: Kerstin Brinkmann, Université de Genève, FPSE, Switzerland)

Room A 019

*Hedonic goal pursuit: Addressing a blind spot in the self-control literature*  
(Katharina Bernecker)

*Short-Term Variation in Goal-Related Doubts: An Experience Sampling Study*  
(Benjamin Mario Wolf)

*Implicit Affect and Effort: Prime Awareness and Task Context Effects* (Guido Gendolla)

*The joint impact of task difficulty and the need for achievement on effort mobilization* (Kerstin Brinkmann)

**Technology at work** (Chairperson: Andreas Sonderegger, University of Fribourg, Department of Psychology, Switzerland; Juergen Sauer, University of Fribourg, Department of Psychology, Switzerland)

Room A 022

*The impact of interface design of smartphones on usage behavior and well-being* (Carli Ochs)

*Quality over quantity: The influence of support system ability on performance in visual inspection of cabin baggage* (Alain Chavaillaz)

*Automatic analysis of job interviews* (Marianne Schmid Mast)

*Algorithmic Leadership: When Computers Take the Lead* (Jenny Sarah Wesche)

## **Developing and evaluating methods in different (psychological) contexts**

(Chairperson: Eric Mayor, Université de Neuchâtel, IPTO, Switzerland)

Room A 027

*Challenge and hindrance stressors : an attempt to go beyond a-priori categorization* (Florent Blanc)

*Recognizing Character Strengths in Others: The Development of an Instrument to Measure the Ability to Accurately Recognize Character Strengths in Others*  
(Fiorina Giuliani)

*Temporal patterns in 7 million LIWC-coded Tweets* (Eric Mayor)

*"Don't be that W.E.I.R.D." - Personnel Psychology connecting Kenya and Germany* (Michaela Heinecke-Müller)

**Perception in typically-developed adults and dyslexic readers** (Chairperson: Andrew Ellis, University of Bern, Department of Psychology, Switzerland)

Room A 119

*A drift-diffusion modelling approach to the perception of self-motion* (Andrew Ellis)

*Tricking the body schema with virtual body illusions* (Marius Rubo)

*Peripheral appearance in dyslexic readers is characterized by an excessive loss of elements* (Natalia Melnik)

**Influences on memory and other cognitive abilities** (Chairperson: Matthias Ertl, University of Bern, Department of Psychology, Bern)

Room A 122

*Does Familiarity Influence Attentional Refreshing In Visual Working Memory?*  
(Philippe Schneider)

*Why are semantic mismatches distracting?* (Jan Philipp Röer)

*Distorted mental spatial representation of multi-level buildings - Humans are biased towards equilateral shapes* (Matthias Ertl)

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

**Intercultural aspects of trauma across different countries: understanding and treating** (Chairperson: Naser Morina, University of Zurich, University Hospital Zurich, Department of Consultation-Liaison Psychiatry and Psychosomatic Medicine, Switzerland; Chantal Martin-Soelch, IReach Lab, Unit of Clinical and Health Psychology, Department of Psychology, University of Fribourg, Switzerland)

Room A 126

*MAPSS - a newly developed screening tool for traumatized people in different settings (Nikolai Kiselev)*

*Too scared to face the world again: Impact of Acid Attacks in India - An investigation of Psychopathological and Resilience factors among the Women Acid Attack Survivors in India (Naser Morina)*

*Epigenetic and Psychological Factors in the Intergenerational Transmission of Violence (Naser Morina)*

*Problems of Syrian refugees and asylum seekers as well as barriers to access mental health care in Switzerland (Nikolai Kiselev)*

**Innovative ways of measuring and studying emotional competence** (Chairperson: Katja Schlegel, Fabrikstrasse 8, 3012 Bern; Marina Fiori, Route de Cojonex 18, 1000 Lausanne)

Room A 201

*The potential of board games to measure and train emotional competences in children (Alexandra Zaharia)*

*Introducing a new emotion-information processing component of emotional intelligence: its role in predicting charismatic performance under stress (Marina Fiori)*

*Assessing ability emotional intelligence in the workplace (Marcello Mortillaro)*

*Measuring social skills at work: Development of the Workplace Interpersonal Perception Skills test (Nele Dael)*

12:00 - 13:30 **Lunchbreak**

Lunchbreak

Foyer

13:30 - 15:00 **Symposium / Paper Sessions**

**Intimacy in couples: Who is maintaining it more easily?** (Chairperson: Nathalie Meuwly, University of Freiburg/Fribourg, Department of Psychology, Switzerland)

Room A 015

*Insights Into Couples' Everyday Lives: Relationship Processes and Their Day-to-Day Variability as Explanatory Mechanisms Underlying Personality-Relationship Transactions (Rebekka Weidmann)*

*Rejection experiences in intimate relationships and its implications on intimacy processes (Marianne Richter)*

*Sharing intimate thoughts and feelings when stressed seem to play a different role in female same-gender couples (Nathalie Meuwly)*

*Welcome Baby – Goodbye Relationship? Risks for couples relationship dissolution across the transition to parenthood (Mirjam Senn)*

**Psychological adaptation and growth following the onset of health problems** (Chairperson: Valerie Carrard, Swiss Paraplegic Research, Personal Factors Psychological Epidemiology Group, Switzerland)

Room A 017

*PSYCHOLOGICAL ADAPTATION FOLLOWING SPINAL CORD INJURY: IDENTIFYING PROFILES AT THE END OF REHABILITATION (Mayra Galvis Aparicio)*

*Trajectories of depressive mood after the onset of a physical chronic health condition (Caroline Debnar)*

*Posttraumatic growth after spinal cord injury: Two studies examining its prevalence, correlates, and predictors (Simon Kunz)*

*Identity, adversarial growth and recovery from mental and physical health problems (Hannah Klaas)*

**Self-regulation and effort II: Applied and fundamental issues** (Chairperson: Nicolas Silvestrini, Université de Genève, Faculté de Psychologie et des Sciences de l'Education, Switzerland)

Room A 019

*Choosing the best: Self-awareness leads to a better choice of goal means via problem solving (Antonia Kreibich)*

*Are we wired to sit? Automatic neuro-behavioral reactions to exercise-related stimuli (Boris Cheval)*

*Light affects effort-related cardiovascular response during an auditive working memory task (Ruta Lasauskaite)*

*Neural correlates of effort-related cardiovascular reactivity: an integrative approach (Nicolas Silvestrini)*

**Factors influencing performance at work and family life** (Chairperson: Laurenz Meier, Université de Neuchâtel, Institut de psychologie du travail et des organisations, Switzerland)

Room A 022

*The Role of Psychological Detachment and Psychological Availability in the Effects of Workload on the Behavior towards the Partner: A Diary Study Among Dual-Earner Couples (Laurenz Meier)*

*The effects of work-family conflict on self-esteem and the moderating role of contingencies of self-worth: A daily diary study (Denise Messerli)*

*Illegitimate tasks as a health risk among young workers with high self-efficacy (Yannik Faes)*

**Contributions of psychological science to a sustainable society** (Chairperson: Ulf J. J. Hahnel, University of Geneva, Department of Psychology and Swiss Center for Affective Sciences, Switzerland; Beatrice Conte, University of Geneva, Department of Psychology and Swiss Center for Affective Sciences, Switzerland)

Room A 027

*Green somatic marker: Environmental value orientation predicts skin conductance responses towards environmental stimuli. (Beatrice Conte)*

*From emotions to pro-environmental persuasion: the importance to investigate underlying cognitive mechanisms (Aurélien GRATON)*

*Are individuals with higher levels of environmental attitudes more sensitive to environmental prompts ? (Lisa Moussaoui)*

*The role of evoked affect for public acceptance of energy-related and environmental technologies (Bernadette Sütterlin)*

*Top-down information search processes in the context of renewable energy projects (Ulf Hahnel)*

# 16th SPS SGP SSP Congress. Psychology's Contribution to Society

**Is character necessary in psychology? Current findings from basic, applied, and intervention research** (Chairperson: Willibald Ruch, University of Zurich, Department of Psychology, Switzerland; Fabian Gander, University of Zurich, Department of Psychology, Switzerland)

Room A 119

*A personality psychology perspective on character (Willibald Ruch)*

*What parents look for in their children: Character strengths of the VIA classification are generally desirable (Lisa Wagner)*

*Character strengths: Person-environment fit and relationships with job and life satisfaction (Fabian Gander)*

*Strengths-based interventions in Positive Psychology: Open questions and new directions (Valentina Vylobkova)*

**Fundamental and applied research on face processing** (Chairperson: Lisa Stacchi, Université de Fribourg, Department de Psychologie, Switzerland; Meike Ramon, Université de Fribourg, Department de Psychologie, Switzerland)

Room A 122

*Effects of task demands and task difficulty on information sampling in the healthy and damaged brain (Meike Ramon)*

*Benefits of deploying Super-Recognizers in criminal investigation (Meike Ramon)*

*Neural Face Representations are Tuned to Eye Movements (Lisa Stacchi)*

*Dynamic but not static facial expressions are better recognized with low phase-signals (Anne-Raphaëlle Richoz)*

**Predicting and promoting therapy success** (Chairperson: Anna Babl, Universität Bern, Institut für Psychologie, Switzerland)

Room A 126

*Using the Personalized Advantage Index for individual treatment allocation to cognitive behavioral therapy (CBT) or a CBT with integrated exposure and emotion-focused elements (CBT-EE) (Nadine Friedl)*

*The effects of an Integrative Brief Systemic Intervention on parent couples (Cindy Eira Nunes)*

*Within-patient effects of defenses on therapy outcome and derived clinical implications (Anna Babl)*

**Social cognition: Determinants, neurobiological substrates, the role of the social target, and variability across populations** (Chairperson: Tatjana Aue, Universität Bern, Institut für Psychologie, Switzerland)

Room A 201

*Group membership dictates the neural underpinnings of social optimism bias (Mihai Dricu)*

*Social optimism biases are associated with brain structures that are also related to personal optimism (Dominik Moser)*

*Brain activity related to empathy in old age (Olga Klimecki)*

*Social Cognitive Enhancement in Cocaine Users (Ann-Kathrin Kexel)*

15:15 - 16:45

## **Postersession/Coffee Break**

Poster Session 2 including Coffee Break

Rooms B-102 + B-105

*Are many better than one? Emotional advantages of using two regulation strategies to downregulate negative emotional responses (Simon Thuillard)*

*Children's stress regulation capacity and mental health: the study protocol (Anaëlle Leuba)*

*Parent-child agreement on health-related quality of life ratings in diabetes mellitus type 1 and healthy controls (Alisa Manske)*

*Served well? A field study on the effects of conveying self-control strategies on volleyball service performance (Wanja Wolff)*

*Learning to resist the urge: Preliminary data on alcohol-specific inhibition training in abstinent alcohol dependent patients (Maria Stein)*

*Coding of emotion regulation strategies in young children - a new assessment tool (Barbara Bechtler)*

*The effect of digit value and covered area on perceived duration (Stefan Pichelmann)*

*The influence of passive self-motion on spatial perspective taking is modulated by attention (Manuel Klaus)*

*The winning developmental trajectory for mastering arithmetic: Using finger early to calculate and quickly abandoning them (Claudia Campos Ramos)*

*Sense of indebtedness: Analyses of the measurement quality of the construct among second generation immigrants (Beate Schwarz)*

*It's all about absorption: Learning by teaching in immersive virtual reality (Sandra Chiquet)*

*No impact of an exposure to a vibroshaper on free recall performance (Michèle Muhmenthaler)*

*The generation effect in memory as a misnomer: Explaining it by levels of processing (Vinzenz Morger)*

*Processing Speed and its Influence on Psychometric Intelligence in Adolescents suffering from Multiple Sclerosis (Stefan Troche)*

*Do eye movements show how mental images are maintained? (Lilla Gurtner)*

*Comparing Sociosexual Orientation in Matched Groups of Heterosexual and Homosexual Men (Lea Waldis)*

*Character Strengths in University Students: Application across Different Life Domains and Relationships with Flourishing (Lisa Pindeus)*

*An empirical investigation of the assignment of 24 character strengths to six virtues (Fiorina Giuliani)*

*The Effect of Improved Emotional Competence on the Course of Burnout and Depressive Symptoms (Larissa Blättler)*

*Exploring Group Processes in Academic Collective Cheating (Cinzia Zanetti)*

*Airport security X-ray screening of hold baggage: 2D versus 3D imaging and evaluation of an on-screen alarm resolution protocol (Myrta Jasmine Isenschmid)*

*Compliance of surgical teams with a newly introduced intraoperative briefing and factors influencing this compliance (Eliane Timm-Holzer)*

*Balancing Work and Life: An Online-Intervention to Promote Work-Life Balance (Franziska Baumeler)*

*Implicit coordination: A Review and New Approach (Jasmin Zimmermann)*

## 16th SPS SGP SSP Congress. Psychology's Contribution to Society

---

*Work demands, private demands, job satisfaction and health: A comparison between men and women in leading positions (Sibylle Galliker)*

16:45 - 17:15    **Transfer to Fabrikstraße**

17:15 - 18:15    **Public Keynote: Stephan Lewandowsky**

**"Fake News", Donald Trump, and the "Post-truth"** (Speaker: Stephan Lewandowsky, University of Bristol)

Fabrikstrasse 6, R.  
001

18:15 - 18:30    **Closing Ceremony and Awards**

Closing Ceremony including Poster- and Short Talk Award

Fabrikstrasse 6, R.  
001
